+91 9921981841 | saiyedtaha427@gmail.com | Mumbai, India | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analytics & MIS Manager with 3+ years of experience building MIS systems, ERP solutions, and interactive Power BI dashboards. Skilled in Python, SQL, and Advanced Excel for transforming 50K+ record datasets into actionable business insights. Hands-on with end-to-end system development (Node.js, PostgreSQL, Google Apps Script), workflow automation, and leading cross-functional teams to deliver reporting and tech solutions on time.

TECHNICAL SKILLS

Languages & Databases: Python (Pandas, NumPy), SQL, MySQL, PostgreSQL, Java, Advanced Java, Hibernate, JavaScript, Node.js, HTML, CSS

Data & BI: Power BI, DAX, Advanced Excel (Power Query, Pivot Tables), Data Analysis, Data Visualization (Matplotlib, Seaborn), Machine Learning (Scikit-learn), MIS, Reporting

Systems & Tools: ERP Development, Flow Management Systems (FMS), Dashboard Design, Google Apps Script, Web Development, Canva, Team Management

PROFESSIONAL EXPERIENCE

Noesis

2026 – Present

Data Analyst Manager (MIS & Systems) | Mumbai, India

- Built and manage the company's MIS systems and internal tools, including a custom Flow Management System (FMS) for lead generation and follow-up tracking used daily by the Business Development team.
- Designing and developing a web-based ERP (Node.js + PostgreSQL) to migrate lead-management workflows from spreadsheets, improving data integrity, automation, and reporting speed.
- Build interactive Power BI and Excel dashboards (live TODAY view, status tagging, deadline alerts) giving leadership real-time visibility into pipeline health and team performance.
- Analyze large datasets (50K+ records) to surface patterns, anomalies, and actionable insights while maintaining high data quality across all reporting.
- Lead and align the BD and tech workflow — coordinating tasks, owning all MIS and tech-related deliverables, and translating business requirements into working systems.

Impulse B2B Intelligence Pvt. Ltd.

Jan 2025 – Feb 2026 (1 yr 1 mo)

Power BI Developer & Research Analyst | Mumbai, India

- Analyzed and transformed large datasets (50K+ records) to identify patterns, anomalies, and actionable insights, ensuring high data quality for reporting.
- Designed, developed, and maintained 3+ interactive Power BI dashboards using Advanced Excel (Power Query, Pivot Tables) to deliver impactful business intelligence.
- Conducted thorough research to support analytics, prioritizing key tasks and presenting outputs in a simplified, user-friendly manner.
- Collaborated with cross-functional teams to gather requirements and deliver customized analytics and reporting solutions.

Intelli Market Solutions

Jan 2024 – Dec 2024 (1 yr)

Assistant Software Manager & HR | Mumbai, India

- Designed, deployed, and reviewed websites and custom software based on client requirements, improving user satisfaction and performance.
- Managed a team of 8+ developers and designers, ensuring 100% on-time delivery of projects.
- Created 20+ brand-aligned visuals, contributing to a 25% increase in brand engagement, and implemented SEO strategies for a 25% lift in organic traffic.
- Conducted market research and supported business strategy, contributing to 10% revenue growth; handled HR interviewing and onboarding for 5+ key hires.

- Designed and reviewed code for the Mehta Sales website, enhancing functionality and reducing load time by 20%.
- Provided timely updates on 3+ project deadlines, design changes, and new features, ensuring successful on-time delivery.
- Conducted website testing with Hibernate (navigation, object mapping) and executed SQL queries for database operations.

PROJECTS

- **ERP System (Lead Management)** — Web-based ERP built with Node.js + PostgreSQL for lead, follow-up, and reporting management, replacing spreadsheet-based workflows with a centralized database.
- **Flow Management System (FMS)** — Lead generation and follow-up tracking system with automated tagging, status workflows, and sign-deadline alerts for the Business Development team.
- **MIS System** — Internal management information system centralizing lead data, team activity, and reporting for the BD function.
- **Lead Tracking Dashboard** — Interactive dashboard with a live TODAY view and HOT / WARM / COLD status tracking for real-time pipeline visibility.
- **Portfolio Website** — Personal portfolio site (HTML, CSS, JavaScript) showcasing dashboards, projects, and skills, hosted on GitHub Pages.
- **Employee Performance** — Interactive Power BI dashboard with data cleaning and DAX measures for performance insights.
- **Sales Report** — Power BI dashboard and data analysis tracking sales trends and KPIs.
- **Quick HR Analytics** — HR analytics dashboard with data analysis for hiring, attrition, and workforce metrics.
- **Swiggy Data Analysis** — Multi-page interactive Power BI dashboard analyzing customer behavior, sales, and delivery trends.
- **Muscle Mafia – Gym App** — Mobile application built with Flutter (Dart & Java) for gym and fitness tracking.
- **Intelli Market Website** — End-to-end website development for the company's web presence.
- **Al Ahyaan – Attars Website** — Designed and developed an e-commerce style website for an attars (perfume) brand.
- **Al Hayat – Skincare Website** — Designed and developed a website for a skincare brand.
- **2025 Report Overview** — Power BI dashboard and data analysis summarizing annual performance metrics.
- **Car Sales Data 2025** — Dashboard and data analysis on car sales volume, pricing, and regional trends.
- **General Report – World Sales** — Global sales dashboard with data analysis across markets and categories.
- **Beauty Data – 2026 Report** — Power BI dashboard and data analysis on beauty industry sales and trends.
- **Sample Report – Job & Industry** — Dashboard and data analysis on jobs and industry distribution.
- **Bikes Data Analysis** — Power BI dashboard and data analysis on bike sales, models, and market trends.
